"Building healthy communities by fostering charitable support for the Osceola Medical Center and the health related needs of the people in the upper St. Croix Valley."

OCHF Improving Children's Safety

Osceola Community Health Foundation provided funding for lockable medicine cabinets and lock boxes for Community Referral Agency Shelter in Milltown. Ann Frey, director of CRA, shared that the lockable storage will keep prescription meds safely out of children's reach while residing at the shelter. In addition to the lockboxes OCHF provided funding for over the counter and prescription medications that families staying at the shelter may need.
